

SUBJECTS INCLUDED IN THIS REPORT, BY TYPE OF AREA AND TABLE NUMBER

[In order to simplify this guide, the data for certain types of areas are not indexed but instead are listed in the Note at the end of the guide; the cross-classification by sex which appears in virtually every table and the historical statistics which appear in some tables are not specified; and in only a few cases is mention made of the level of detail or the population group covered. The guide does not include the data on nonresponse rates presented in the appendix tables of chapters B, C, and D. Information on the content of other 1960 Population Census publications appears on page V]
