Collections
Librarians work closely with faculty and students to develop strong collections supporting research and teaching, with seamless off-campus access. You may contact us to suggest new books, journals, DVDs, datasets, and other items to add to the Libraries’ collections.

For materials not owned by the NCSU Libraries, free interlibrary loan is available through Tripsaver (www.lib.ncsu.edu/tripsaver). Articles are delivered online, usually within two business days. Books within the Triangle Research Libraries Network (UNC-Chapel Hill, Duke, and NCCU) can be physically delivered within two business days, and NC State faculty and students can also visit and borrow materials directly from those institutions and from all University of North Carolina libraries across the state.

Subject specialist research librarians
Subject specialist research librarians are ready to offer you in-depth help in finding and analyzing information in your particular discipline. You can request a consultation or instruction session by contacting them directly (www.lib.ncsu.edu/staff/subjectspecialists).

Research assistance
Librarians are available to support your research needs and answer questions. Contact them for one-on-one assistance with literature searching, citation management, data management, or finding information (www.lib.ncsu.edu/researchconsultation).

The Libraries’ Copyright & Digital Scholarship Center provides guidance on scholarly communication and copyright issues (www.lib.ncsu.edu/cdsc).

Workshops
Workshops are offered on a regular basis covering topics including literature reviews, navigating research databases, citation management, and data visualization (www.lib.ncsu.edu/researchworkshops).
Technology lending
The library lends electronic devices, including laptops, digital cameras, camcorders, digital voice recorders, graphing calculators, and iPads (www.lib.ncsu.edu/techlending).

Graduate student spaces
The Graduate Student Commons in the D. H. Hill and Hunt Libraries are designed specifically for graduate students, with open study spaces, reservable group study rooms, computer workstations, and soft seating. A valid Wolfpack One Card is required for access. Several Graduate Conference Rooms are also available at D. H. Hill.

High-tech learning spaces
The NCSU Libraries provides spaces for high-definition visualization, simulations, ideation, and collaboration. These spaces accommodate various projection and display configurations and offer flexible furnishings to support a wide range of uses. Dedicated videoconferencing space is also available at the Hunt Library.

Spaces
The NCSU Libraries offers a variety of learning spaces and collections in five library locations across NC State’s campus.
